ChileB2B by ProChile, is a marketplace that allows importers from all over the world to connect with Chilean exporters, visualize their supply and start business, in a few clicks. ChileB2B is secure because it does not involve payments or the entry of financial data; it is a closed and protected platform, to which only exporters and importers verified by ProChile will be able to access. ChileB2B will be a useful tool for conducting international business. It is intuitive and can be accessed from multiple digital devices.
