**Products** Organic Blueberries

**Description** The Chilean Blueberry Committee is an organization linked to the Chilean Fruit Exporters Association of Chile A.G. (ASOEX), and is formed by the main exporters of blueberries of the country and represents 76% of the exports of fresh blueberries of Chile. The mission of the Committee is to defend and develop the blueberry industry of Chile, contributing to increase its levels of efficiency and competitiveness. In addition, we seek to develop the consumption of Chilean blueberries in international markets.

During the 2017-2018 season, Chile exported 110,351 tons of blueberries to the world, marking a new milestone in terms of export volumes. This figure was 6.4% higher than the 2016-2017 period, being the highest recorded to date.

In relation to the exports of organic blueberries, during the 2017-2018 season, 10 thousand tons of fresh organic blueberries were exported, which represents 9.1% of the total of blueberry shipments.
